

# TECHNICAL RIDER

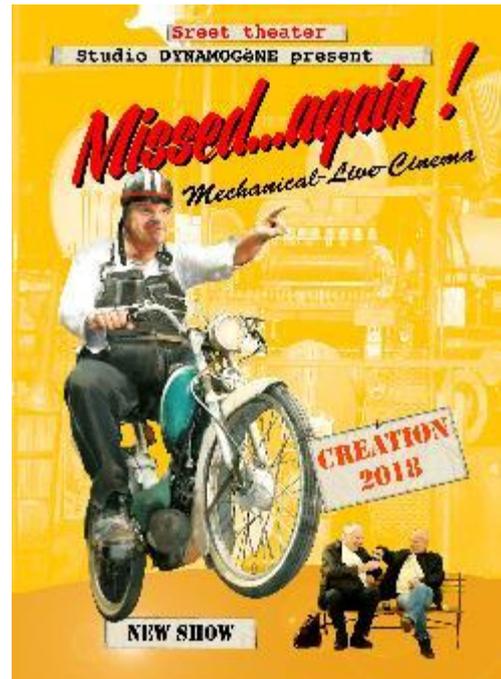

## Missed...again!

*Mechanical-Live-Cinema*

French Company DYNAMOGÈNE

### - Fixed show –

-----  
Only performing at night!  
-----

### Description:

Fixed show suitable for all audiences

Duration: 70 minutes

Projection of a silent movie. Soundtrack produced live by a huge musical machinery.

The screen (3m x 2m) is on the top of the structure.

**3 comedians.**

### Ideal location:

Location scouting is best but pictures and description of the site are suitable.

Ideal dimensions: **18m x 12m** (if different, please contact us)

High: **6 meters minimum**

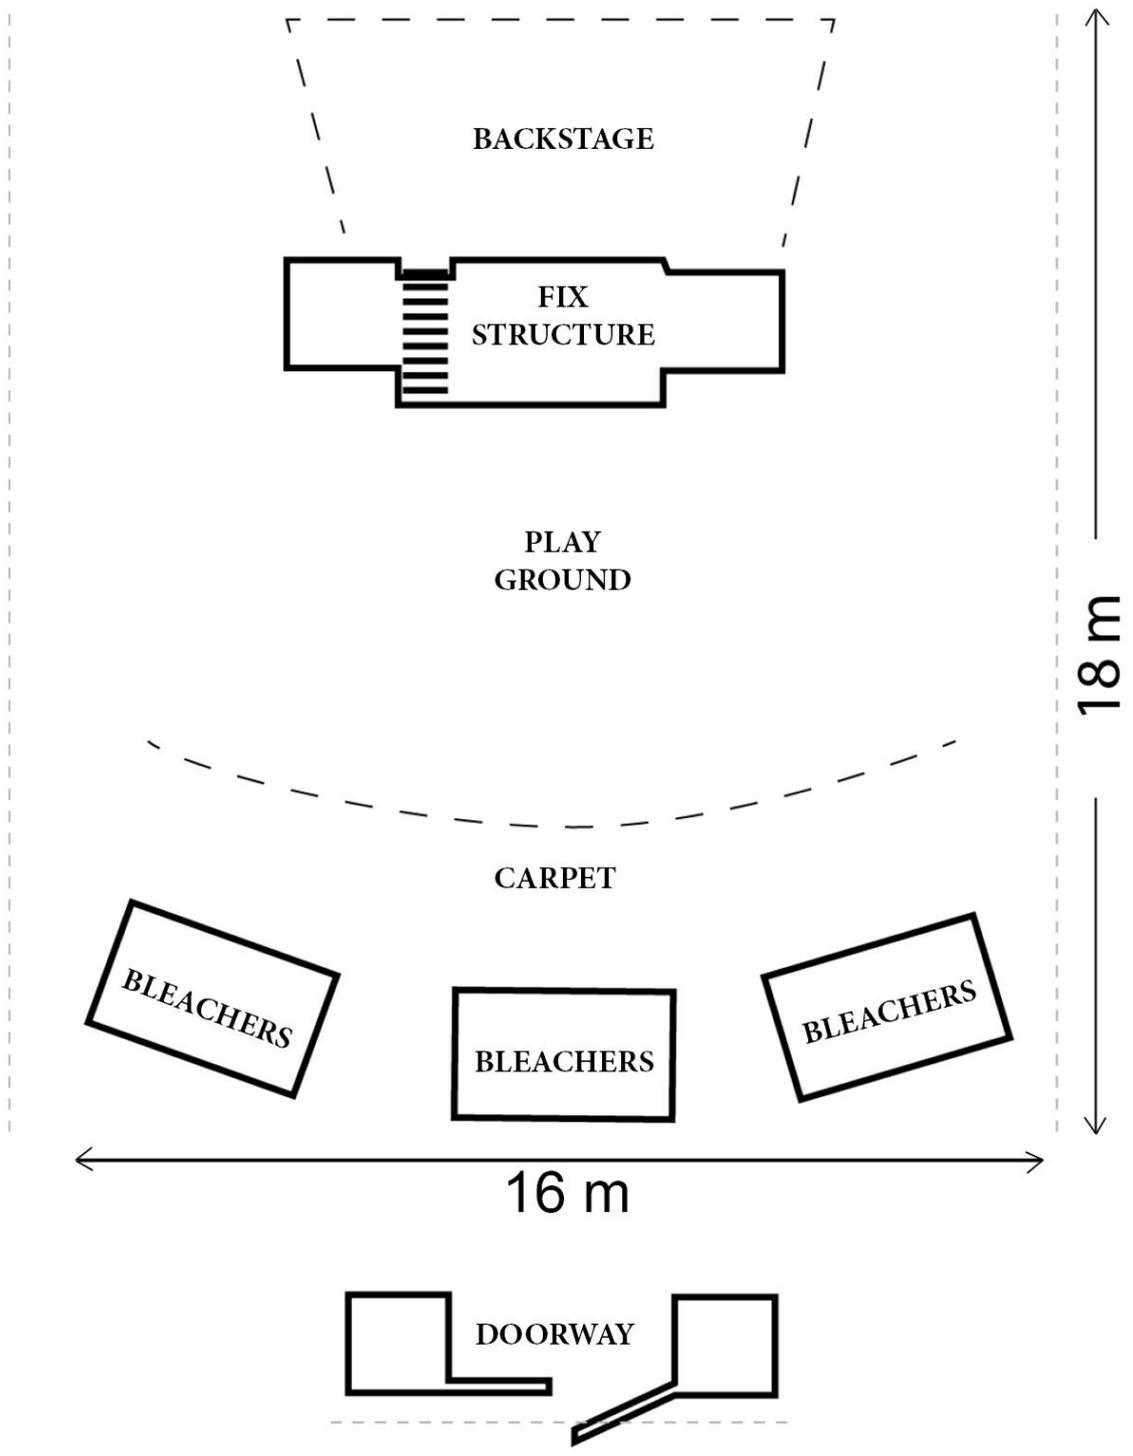

We can play inside (*shed, warehouse, theatre...*) or outside

Ground: preferably **flat and hard**

**Minimum Scenic Space:**

**10m x 10m, flat ground, height = 6m**

**WARNING: For outside representations, wind and rain can make us stop the show and close the play area from the public.**

Other layouts are possible, consult us. Scouting preferable.

## Scenery access:

Our truck must have access to the site.

MERCEDES (*license plate: CD556CP*) – heavy duty (*PTAC = 12 tones*)

**The truck must get as close as possible from the show location.**

As every element of our décor is on wheels, it is necessary for us to have an easy access and practicable ground.

If the ground is soft (grass, soil...) please provide us with plywood panel (at least 10mm thickness), so we can put our décor in place.

Our vehicle (12 tones truck, must be parked nearby during our stay).

**If entry through a door : minimum height before installation 2.25m.**

## Electricity:

The structure must be fed with:

**380V (3 phases + neutral + ground for each phase)** (*other configuration possible, contact us*)

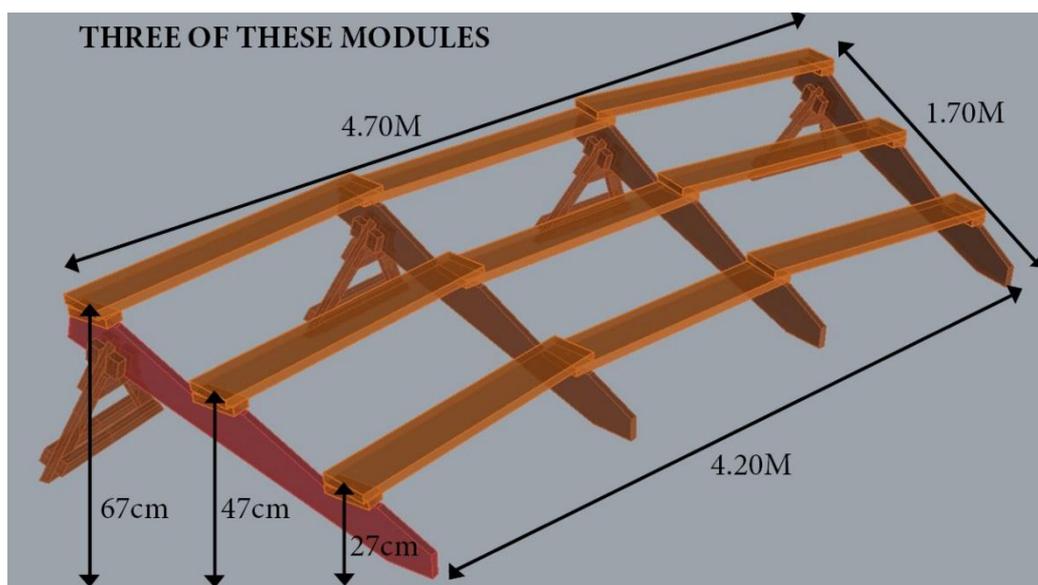

We have a normalised electric box (30mA differential) and a 20-meter extension cable (+ P17 adaptator – 32A for junction on a general box).

Any electric intervention relative to plugging will be done by a technician from the festival under the organiser responsibility.

## Time & Capacity:

Must be played by **night** (film projections), *nightfall acceptable*  
(*No need for light gear, we are autonomous*)

We have a tier (100 seats in 3 modules (cf. picture below)) + children on carpets on the floor + adults standing, which makes around **300 people**.

Picture of one module

### **Announcement and publicity:**

Thanks for announcing the time and place of the show.

Usually we play in the street and access to the show is free. But, it is possible to establish a small entry fee (that is up to you).

At the end of the show, we take the liberty to sell posters and small “souvenirs” link to the show.

We have **files and pictures** at your disposal (300dpi if needed)

### **Surveillance/guarding...IMPERATIVE!!!**

**Day and night**

### **Lodges:**

**For 4 people, nearby the show location**

*(drinks + snacks + toilets & sink)*

### **Assembly/disassembly:**

Assembly: **4 hours** / disassembly: **3 hours**

We ask the help of two technicians for loading or unloading  
(just the first hour or so)

### **During the show:**

**2 people** from the organisation to make sure that everything is running well (*discreet surveillance of the public*)
