

TECHNICAL RIDER

Mr **CULBUTO**

320 kg of raw poetry ...

height = 2m00
wide = 1m20
weight = 320kg

- **2 shows of 45 minutes** each per day (flexible)
each performance includes a stroll through the streets (Culbuto on his chariot) and 5 or 6 stops (Culbuto on the ground, in action).
- **setting up / off** : 30mn
- **board and lodging** (in single rooms) for 2 or 3 persons
- the show must take place in an area without too sloping roads, allowing Mr Culbuto to be pulled along with his chariot (**stairs forbidden !**).
the areas where he will be put down must be 4 x 4 m at least
and **as flat, hard and regular as possible** (cement, concrete, paving stones...)

ABSOLUTELY IMPOSSIBLE on GRASS, SAND, BEATES EARTH ...

- a nearby **car park** is needed for a van (100m maximum, it must be accessible to the delivery man & its chariot), as well as a secured and flat place (stairs forbidden !) to store the material (1m15 large)
- someone (**1 person**) is needed to follow the show

*in your programm, if possible,
do not announce the time schedule too precisely,
in order to surprise the audience.
for instance : between 16 p.m. and 20 p.m. in ... street,
instead of : 16.30 p.m. and 19 p.m. in ... street.*
